

Core Design Communications Ltd recognises the important role it has in managing the impact of its day-to-day operations on the environment and in promoting the principles of sustainability in all of its activities.

1. Core Design Communications Ltd is committed to:

- being a responsible and environmentally conscientious organisation;
- maintaining and enhancing the quality of the environment wherever it is working
- the prevention of pollution;
- the continual improvement of its environmental management and performance;

2. Core Design Communications Ltd is committed to environmental best practice throughout its activities by:

- integrating environmental sustainability into strategies, policies and operations;
- complying with legal and other requirements relevant to its operations;
- promoting the prudent use of natural resources and the elimination of waste;
- implementing a transport and travel policy that encourages use of the sustainable transport options available;
- working with suppliers and contractors, where possible, to ensure the best use of natural resources and to minimise the environmental impact of their goods, supplies and services;
- providing appropriate training to its staff to ensure they are competent to control the activities for which they are responsible, and so support the delivery of this policy;
- developing awareness of its staff of the impact they have on the environment and helping them to minimise this impact
